

Point of Sale (POS) Services Ready-Made and cloud-based Software Solutions

Car Rental System Package

1- Manage Clients

Store client details and booking history for efficient service and tracking.

2- Manage Vehicle Maintenance

Schedule and track regular maintenance activities for each vehicle.

3- Vehicle Repairs & Follow-Up

Log repair requests, updates, and maintenance completion for each vehicle.

4- Manage Booking

Allow staff to register, confirm, and manage vehicle rental bookings easily.

5- Generate Checklists & Invoices

Create vehicle condition checklists before and after rental, with auto-generated invoices.

6- Manage Expenses

Record all operational expenses such as repairs, cleaning, or insurance renewals.

7- Payment Management

Process and record payments made by clients, including deposits and balance settlements.

8- General Reporting

Access reports on vehicle usage, revenue, and operational expenses for better business insights.
