

Point of Sale (POS) Services

Ready-Made and cloud-based , Software Solutions

Stock Management with Invoicing System

1 – Product & Item Management

Easily create, organize, and manage all your products with detailed information and categorization.

2 – Stock In / Stock Out Management

Track every movement of your inventory in real-time, ensuring accurate stock levels at all times.

3 – Stock Adjustment

Quickly update and correct stock discrepancies to maintain reliable inventory records.

4 – Low Stock Alerts

Receive automatic notifications when items are running low, helping you avoid stock shortages.

5 – Supplier Purchase Records

Maintain a complete history of purchases and supplier transactions for better tracking and planning.

6- Customer Sales Records

Keep detailed records of all customer transactions for improved relationship management and reporting.

7 - Quotation Management

Create and manage professional quotations with ease, converting them into sales seamlessly.

8 - Invoice Generation

Generate accurate, professional invoices instantly for every transaction.

9 - Payment Status Tracking

Monitor paid, pending, and overdue payments to maintain strong financial control.

10 - Printable Invoice Format

Produce clean, branded invoices ready for printing or digital sharing.

11 - Stock & Sales Reports

Access detailed reports to analyze performance, track trends, and support smarter business decision.
